Autoloading

KF6012 Web Application Integration - 2020

```php
include 'classes/webpage.class.php';
include 'classes/webpagewithnav.class.php';
include 'classes/router.class.php';

$page = new Router($route);
```

```php
function autoloadClasses($className) {
    $filename = "classes\\" . strtolower($className) . ".class.php";
    $filename = str_replace('\\', DIRECTORY_SEPARATOR, $filename);
    if (is_readable($filename)) {
      include_once $filename;
    } else {
      exit("File not found: " . $className . " (" . $filename . ")");
    }
  }
spl_autoload_register("autoloadClasses");
```

```php
include config/config.php';

$page = new Router($route);
```
